WHO?

83 Kindergarten through 8th Grade Teachers from Bell, Barbourville Ind., Estill, Knox, Middlesboro Ind., Pineville Ind., & Pulaski School Districts are being impacted throughout the CHARGE Grant.

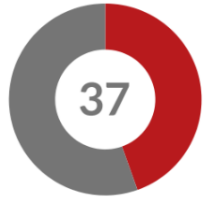

WHAT?

CHARGE is designed to assist teachers with opportunities to develop a broader and deeper understanding of Civics, History and Geography while incorporating as many English/Language Arts cross-curricular connections as possible. The overall goal of CHARGE is to also provide them high quality and engaging instructional strategies and immersion experiences in which, they can immediately put to use in their classrooms.

To date, CHARGE teachers have completed 1,194 total hours of Professional Learning/Content Cadre focus to enrich their classrooms.

Taking a **CHARGE** forward in learning...

More Opportunities for teachers to shine...

25 CHARGE Teacher Leaders were newly trained by TCI, History Alive on how to integrate the love of History Education in a hands-on way to help engage your students in a way like never before! Teachers received online access, student online subscriptions, placards, and textbooks. Attendees also received numerous strategies to implement in daily instruction.

CHARGE teachers have the opportunity to explore and learn about FLIPGRID to enhance their own professional learning and to increase rigor in their own classrooms.

31 CHARGE Teacher Leaders have applied for a technology grant, for Chromebook carts to use in their classrooms. They have proven their own professional technology proficiency through Google Level 1 training and/or Educator Certification. Those applying have also given one detailed lesson of HOW they would use Chromebooks to enhance instruction in their classrooms. Selections will be made based on rubric listed on survey monkey link application. Winners of Technology Grant will be notified by April 29, 2019.

“KEDC’s CHARGE Grant has opened so many doors for Social Studies Teachers that we haven’t had opened in a long time. We feel support and appreciated. We feel like the content that we teach is valued and important too! Thank you, KEDC for all that you do for our students and for always finding a way to have grants that really ARE what help teachers!”
