On-Site Technical Assistance Application

The Kentucky Center for School Safety is very pleased that your school district is requesting technical assistance to maintain a safe, secure, and healthy environment for your students. The training offerings have been developed based on high quality, researched based professional development for all stakeholders in the education process.

In order to expedite this request, the following information should be returned as soon as possible. Please remember that the training is contingent on the availability of funding. Mileage and lodging (if any) will be reimbursed by the school district. If you have any questions, please contact Don Martin at 502-783-0089.

Agency/School District/School: Southeast Educational Cooperative

Contact Person: Clabe Slone

Title: Educational Consultant

Address: 707 North Second Street

City: Richmond

State: KY

Zip: 40475

Phone: 859-248-5955

E-Mail: clabe.slone@kedc.org

Has your school district participated in a KCSS School Safety Assessment?

 Yes No

When?

What area of technical assistance are you requesting? (i.e. Behavior Management, Social Skills, Bullying, Emergency Management Guide Policies, and Procedures)

We represent a region of the state with host 28 school districts. One of our goals going into the next school year is to bring this region more awareness of school safety and to share the latest procedures for several school crisis events. I would be willing to talk more about anything more specific about a one day event in our training room in London, KY.

What are the dates and how many participants are you anticipating for this training?

July 18, 2013 - Max of 50

Comments:

This would be our first event of this kind for our region that we serve.
